Send Us Quote Request

Simply use our website, email, or phone to request a free, no-obligation quote. We'll listen to your needs, including appliance count, location, and any special requirements.

We Send Clear Estimate

We provide a comprehensive, itemized estimate that clearly outlines the scope of services, specific appliance details, and pricing breakdown. Our estimates are designed to be easy to understand and completely transparent—no hidden charges, no unexpected costs, just honest pricing you can rely on.

Execution of On-Site Testing

Upon Approval, Technician Visits the Site

Our team of skilled technicians will arrive at your location at the agreed-upon time. Following a site induction and walkthrough, we will conduct testing and tagging using the advanced Test and Tag Kiwi app, which is connected to wireless equipment. This includes the Delta PAT MI 3309 and a printer for on-site printing of QR-coded tags, displaying the test date and the next test date. Each test result will be immediately recorded in our custom-built software, guaranteeing real-time accuracy and traceability. We will also complete photographic asset registration for each appliance, Technician will place a QR barcoded tags on each appliance. (Scan the QR code with any smart device to get full detail of that appliance). All data will be securely synchronized with your Admin Portal, ensuring comprehensive compliance, visibility, and minimal interruption to your operations.

Smart Asset Tracking with Full Visibility

Examples of What We Solve:

☑ Photographic Asset Registration

☑ QR Code Tagging.

☑ Asset Access via QR Code

☑ Admin Portal & Asset Monitoring

Complete Digital Logging

Scan-to-View Reports

Real-Time Test Results

Results are synced instantly to your admin portal.

Real-Time Asset Details From Anywhere

Peace of Mind with Every Scan

Smart tracking means more than convenience — it's built on trust. Our QR system is fast, easy, and secure.

What customers will get when they scan with any smart device

- ☑ Detailed Asset Information
- ☑ Live Status & Test Results
- ☑ Photographic Evidence

Why Customers Love It

- ☑ Super Fast – Loads instantly, even on mobile.
- ☑ No Login Needed – Just scan and go.
- ☑ 24/7 Access – From anywhere, anytime.
- ☑ Fully Secure – Data is protected with industry-standard encryption.

QR Code Tagging

Each appliance receives a durable, scannable QR tag after testing. It links directly to test history and status, ensuring accurate asset tracking, easy identification during audits, and long-term compliance visibility.

Real-Time Access

Customers can scan the QR code anytime to instantly view each asset's test report, expiry status, and compliance details. Whether onsite or offsite, this feature ensures real-time access to key safety data and simplifies asset tracking.

Admin Dashboard + Alerts

Log in to your secure portal to access all test records, reports, and asset data. Monitor expiry dates, download reports, and receive automatic email alerts—helping you stay compliant without manual tracking.

Access Complete Appliance Report in Just One Scan
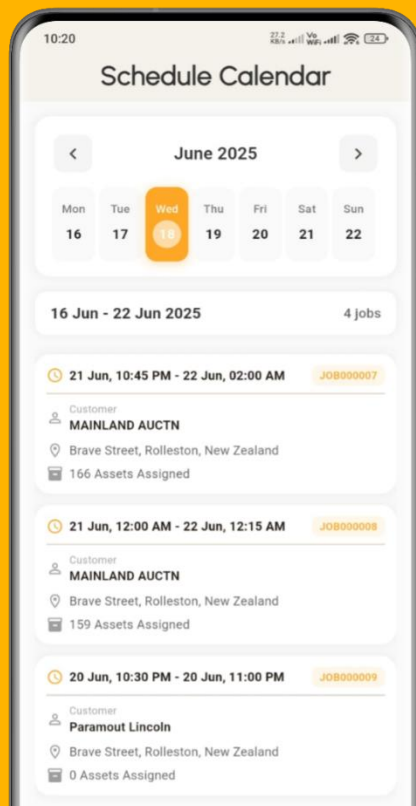

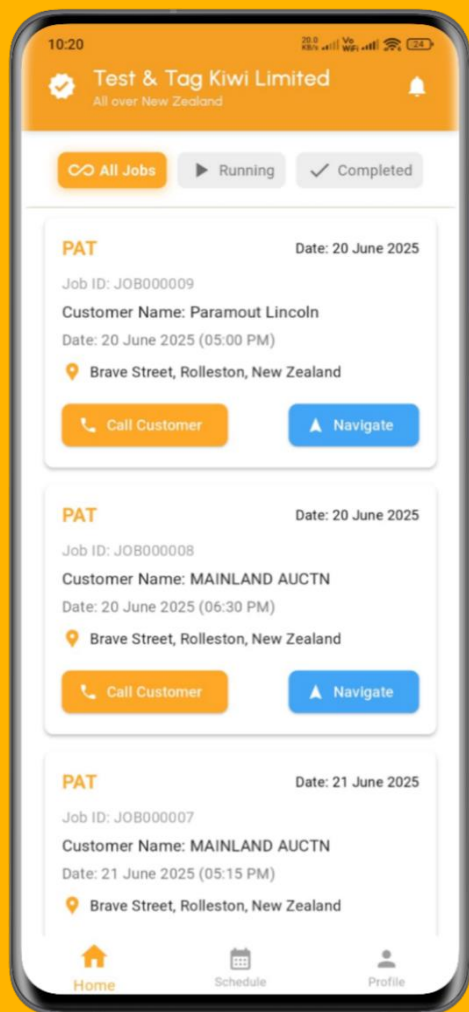

Test and Tag Technician App

Our custom-built mobile app empowers technicians with the tools they need to complete test and tag jobs efficiently and accurately on-site.

The Test and Tag Kiwi mobile app is the all-in-one field tool for technicians performing electrical appliance testing and tagging across New Zealand. Designed to meet AS/NZS 3760 standards.

24/7

24/7 Scheduling Visibility for Smarter Service

- Job Management – View, accept, and update assigned jobs with full customer and schedule details
- Smart Scheduling – Visual calendar for daily and weekly job planning
- Asset Tracking with QR Codes – Tag appliances, capture photos, and maintain a digital inventory
- On-Site Testing Integration – Record Earth Bond, Insulation, and Leakage test results
- PAT Device Connectivity – Automate test data collection via connected testing equipment
- Built-in Communication – Call customers or navigate to job locations directly from the app
- Real-Time Notifications – Receive instant alerts for job assignments and updates

Advanced Admin Portal for Complete Asset Monitoring and Compliance

Our customer portal gives you full control over tested assets. Track locations, results, and retest dates. Generate reports like Asset Register, Summary, and Overdue Assets. Stay compliant with smart filters, alerts, and asset history — all from one secure, easy-to-use dashboard.
